

Care and Maintenance

This beautiful surface is *LUCITE CAST ACRYLIC*. . .the highest quality, most durable material available. Its hard, non-porous surface prevents dirt from accumulating and resists stains better than other plastic materials. With normal use, *LUCITE CAST ACRYLIC* is so durable it will retain its beauty with only a minimum of care. To maintain the elegant look of *LUCITE CAST ACRYLIC*, just follow these simple steps:

- For normal care and cleaning use a soft cloth or sponge with soap and water. Rinse well and dry with a soft, clean cloth. If using a household cleaner, make sure it is recommended for use on acrylic by the manufacturer.
- Remove dust and dry dirt with a soft, clean, damp cloth.
- Clean grease, oil, paint and ink stains with isopropyl (rubbing) alcohol. Rinse well and dry with a soft, clean cloth.
- Never use abrasive cleaners/cleansers.
- Do not allow your *LUCITE CAST ACRYLIC* surface to come into contact with nail polish, nail polish remover, Wintergreen oil (methyl salicylate), dry cleaning solution, lacquer thinners, gasoline, pine oil, etc.
- Avoid placing razorblades or other sharp instruments on this surface, as they may scratch it. Small scratches can be removed by buffing lightly with a clean cloth and using either an automotive polishing liquid or a toothpaste containing a fine polishing ingredient. For deeper scratches, sand the surface lightly with 400 grit "wet or dry" paper and buff with fine-grit buffing compound.
- To preserve the surface finish, annual waxing is recommended. Use a high-grade paste-type automotive wax.
- Manufacturer recommends the use of Jet Fresh® Whirlpool and Airbath cleaner to maintain your whirlpool or Airbath system.

Keep this surface glossy and beautiful by giving it proper care. And remember, with *LUCITE CAST ACRYLIC*, proper care is easy care!
